**Subject:** Elnec s.r.o.

To Whom it May Concern:

Elnec s.r.o, of Slovakia does not appear on any U.S. government export control list. A confirmation search can be conducted via the consolidated screening list ([CSL Search \(trade.gov\)](https://www.trade.gov/csl-search)). There are no legal requirements that I am aware of to export any items to this company, other than for those items that would require an export license to Slovakia. Any company can make internal business decisions on whom they wish to conduct business with, and we encourage due diligence. It has come to my attention that some companies believe there are government export restrictions against conducting business with Elnec and I want to reiterate that I am not aware of any such restriction.

Respectfully,

Adam Roth  
Assistant Director for the ECO Program  
U.S. Department of Commerce  
Bureau of Industry and Security  
Office of Enforcement Analysis
